Strategic Direction 2018?2020

[strategic-direction-report-2018-20\\_web-cover\\_12-17.jpg](#)

Our community's voice was clear during the strategic planning process; it is vital Monroe County Public Library be a welcoming, inclusive, and safe place to ensure our community has access to information and resources, skilled staff, diverse programs, and spaces which engage our community in a connected and respectful way.

The Library plays a central role in facilitating our community's aspirations to be an informed, engaged, and caring place. This plan lays out the Library's goals for the next three years to help our community meet these aspirations. We have identified activities for next year to reach these goals and we have left space to devise new initiatives in years beyond 2018 to ensure we continue to meet new needs and leverage opportunities, which are bound to arise.

Our ultimate goal is to provide Monroe County the very best library experience we can create.

2016 Annual Report

[Annual Report cover](#)

**2016 was another wonderful year of engagement with you**our community through entertaining and educational Library programs and services, from the Maurice Sendak Exhibit to the opening of the new Baby Space. And as always, Library staff provided the high quality, personalized customer service you expect as you read, learned, discovered, and created your way through the year.

For highlights of the Library's impact in the community over the past year, **enjoy our latest Annual Report [PDF]** (print copies available at the Main Library and Ellettsville Branch).
