**Your Review:**

If you have a love for spy books, a demand for romance, and a thrill for drama, then this is a book worth reading. Follow Jaz Parks, assassin extraordinaire, as she hunts down a dangerous vampire with a past relationship with her new partner, who is also a vampire. When Jaz starts to feel an attraction towards her boss things become complicated as her last love and fiance was murdered by the very species she is now having feelings for. With Jaz having to fight tooth and nail (and sometimes with her trusted gun) to keep herself alive, how will she ever have time to be worried over a crush anyway?
