

[Level Up August Highlight - Wacom Tablets](#)

For the month of August, we're highlighting our two Wacom Intuos Pro pen tablets. We have one medium and one large sized tablet to use with digital drawing, painting, and design software. They check out in Level Up for two hours with a library card. See below a bunch of information on how to use these tablets to make the most of your designs.

Wacom is the industry standard for pen tablets; Level Up's Intuos Pros offer a range of features and customization options. Use the pen as you would a pen, pencil, or paintbrush with your favorite drawing software.
