

Fitness at the Library

When you think "Library," do you think physical and mental fitness? Well, if you don't, you should! Updated Library Catalog

The Library catalog will have an updated look and new features beginning May 19. Some of the new functionality you can look forward to follows.

Responsive Design

The Library catalog will responsively adjust for desktop computer screens, tablets, and phones by resizing and reordering the display according to your screen size, enhancing the user experience. This means that you will be able to read and navigate the site with minimum resizing and scrolling. Previously, patrons were directed to either a full-site catalog or a mobile catalog depending on their device.

One-Click Hold Requests

When logged into your account, you will be able to place hold requests with one click. When available, the "One-Click Request" button will appear on the search result and full title display pages for single titles (underneath the ?Place Hold? button?which will still be available should you want to select an alternate location).
