**Title:**

Eating dirt : deep forests, big timber, and life with the tree-planting tribe

**Author:**

Charlotte Gill

**This is a:**

book

**Your Review:**

I had no idea that there are people that make their living planting trees. It was fascinating to find out about this back-breaking, dirty labor. Surrounding the work is a glimpse of the clear cuts and logging that make tree planting jobs necessary. It is an interesting first hand account of tree planting in the Pacific Northwest.
