ellen raskin

Genre:

general

Write a review of the book, including plot points, if you wish:

the westing game is very good. it is about a bunch of people with seemingly no connection whatsoever, until samuel westing, a famous millionaire, dies and they are all invited to his funeral. the funeral turns out to be a murder mystery type investigation where they are all paired up and given clues to try and solve the mystery of who killed him. it is a very funny book.

Would you recommend this book?:
