Write a review of the book, including plot points, if you wish:

Wizard of Earthsea is about a boy, really, named Ged. He is taken as an old wizard's apprentice, but his talents exceed what the old wizard can teach him. Ged goes to an island known for teaching wizards, and he invokes something from the dark side of the world. This book is about Ged trying to get rid of this creature he summoned, and succeeding, but did not come away from it without a lesson learned. This book was my favorite out of all the others Ursula has written.
