Description

Javascript is required to view this map.

Bloominglabs is Indiana's first hackerspace (also known as a makerspace). We are a group of community members that have commonly rented a place where we can build projects both collectively and individually. We also have a mission to serve the community through educational efforts including conducting workshops and partnerships with libraries and local schools. We are open to the public on Wednesday evenings from 7pm until 10pm and are family friendly.
