What Should I Read Next?

Get all-ages fiction and nonfiction recommendations from professionals with NoveList Plus.

- Get read-alike recommendations based on books, authors, series, or narrators you already enjoy.
- Customize your searches by genre to find your new favorite from food & travel to thrills & chills to books to read together with little ones.
- Make your own appeal mix. Appeal helps you find books to match your mood. Select a combination of elements (age, character, illustration, pace, storyline, tone, and writing style) to find the perfect book.
- Customize your searches by theme to find books with the types of plots you want. Themes are the (sometimes) hard-to-define elements of a book that hook a reader, like the toxic relationships of *Gone Girl* or Jason Bourne and his race against time.
- Discover grab and go book lists, like "Books to TV."
- Find book club tips and discussion guides.
- Browse award winners and notable books.
- Read reviews from librarians, professionals, and readers alike.
- Search for books based on grade, Lexile score or Accelerated Reader level.
