

[2081](#)

This was the shortest film I've ever seen. It was based on Kurt Vonnegut's short story called "Harrison Bergeron". The original story was published in 1961 and this twenty-six minute film adaptation was published in 2009. The film was meant to be dystopian science fiction but it could pass for just about anything. It's the year 2081 and there have been an additional 185 amendments to the US Constitution to remove all inequalities in American society. Harrison Bergeron the lone anarchist rebels against this idea and plants a bomb to mount an insurrection. That's it. If there are any fans of [V is for Vendetta](#) then they will probably like this film. The themes are exactly alike; see trailer below. The library has [two copies](#) of 2081 on dvd.
