

## Memoirs in Celebration of the Power of Words

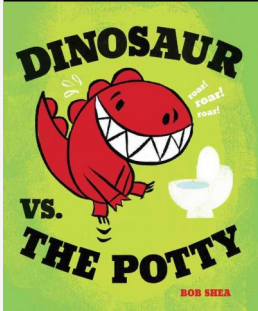

Memoirs by definition are non-fiction, but this list also includes "fictionalized memoirs" to use as examples for kids who are interested in writing their own memoirs. Even the fictionalized titles on this list are mostly based on true experiences in the life of the author or someone the author knows. Choose one of these and open a window into the author's world!

### Picture Book Art

Picture books are an entire art exhibition all the in the compact form of a book. Picture book artists use a variety of techniques to produce art and a story all together for an often critical but very loving audience--children. This list pulls together some interesting and unique picture book art and a few books about picture book art and the artists that create it. If you want to peruse some great art, check out some of these books or look into the vast collection of picture books in the
