In English language groups, learners practice everyday language skills in a relaxed, informal atmosphere with other intermediate to advanced English speakers. Topics include conversation, reading short stories, practicing pronunciation, and more.

Learners enjoy friendly conversation, learn about daily life in the US, gain confidence, and meet new people from around the world.

Drop in at the VITAL office during regular Library hours. First-time visitors will register before joining a class. Staff will conduct an informal language assessment, recommend resources, and provide a calendar.
