36 million adults in the United States are unable to read, write, or do math above a third grade level. These individuals struggle to find jobs, stay healthy, and support their families. Quiz Bowl proceeds support learning opportunities for VITAL learners who want to improve their literacy, English language, or basic computer skills, paying for tutoring materials, training, and educational resources. Last year, VITAL provided learners with nearly 20,000 hours of free educational services.
